

GHEENT IN HANDS OF THE GERMANS

Kaiser's Army Now Within
Less than Thirty Miles
of North Sea.

OSTEND IS OBJECTIVE.

Capture of Place Vital Blow to England—Would Form Base for Operation of Zeppelins.

London, Oct. 13.—With Ghent in the hands of the Germans and the advance guard of the Kaiser's army less than thirty miles from the North Sea, Ostend becomes the center of interest. On its fate may hang the fate of England.

Already the lines are gathering for a general engagement along the River Lys and the allies are hurrying great masses of troops in front of the German armies in an endeavor to check their victorious sweep down the valley of the Scheldt from Antwerp to the coast.

One German division is reported attempting an encircling movement toward Ostend along the coast. A second great movement of German troops from Lille toward Ostend, thirty miles southeast of Ostend, is in progress.

Cavalry encounters continue on the extreme left of the allies, and the fighting is described as the most desperate since the beginning of the war.

It is known that preparations already are being made for a last stand at Ostend under the guns of the British and French fleets in the event of the Anglo-French forces being defeated between Ostend and Ghent. Unofficial reports are that naval runs are being landed, and that French and British marines will assist in defending the city.

The capture of Ostend would be a vital blow at England. Besides furnishing a base for aeroplane and Zeppelin raids across the channel, it is pointed out by military critics that flotillas of submarines and torpedo boats operating from Ostend might be a serious menace to British naval supremacy on which the very existence of England depends.

A German flag flies over the town hall at Ghent. Uhlans have arrived at Zelzate, a village near Ghent. Ghent apparently was undefended. Several times previously German troops passed through the city.

HUNGARY INVADIED. PETROGRAD REPORT

Russian cavalry has "crossed the Carpathian mountains in several places and invaded the Hungarian plains." The Petrograd foreign office cabled Col. Colejewski, military attaché of the Russian embassy today.

"On October 11, the dispatch stated, 'on the left bank of the Vistula river a battle began on roads leading to Trzangrod and Warsaw.'

"The rest of the situation is unchanged. Our cavalry has crossed the Carpathian mountains in several places and invaded the Hungarian plains."

CITY COUNCIL TONIGHT

First Regular Meeting of Two Boards
Since June 23rd Will be Held
at 7:30 o'clock.

The first regular meeting of the new City Council will take place tonight. There was a called meeting of the Board of Aldermen at noon on August 29 for the purpose of concurring in the action of the lower board which had passed ordinances providing for modern roadways and sidewalks on Lee street from King to Queen. The new Council organized on September 1st, at which time the two boards adjourned to meet again September 8.

A number of matters of a miscellaneous nature were referred to committees at that meeting. The most important subject which is likely to be presented tonight will be the report of the special committee on the condition of Alexandria's water supply. A conference between the health committee and the directors of the Alexandria Water Company was held last week. All the papers which had been received from the State Board of Health by the authorities were turned over to the directors of the Water Company at that time they signifying their purpose to make a report to the committee as soon as practicable.

NEWS OF THE DAY

A dispatch from Amsterdam states that the Germans lost 45,000 men in their attacks on Forts Waelhem and Wavre-St. Catherine at Antwerp.

A radiogram to the revenue cutter service yesterday from the commander of the Bering Sea fleet reported the drowning of Assistant Surgeon L. W. Jenkins, P. H. S., and five other men when a boat from the cutter Manning swamped Saturday in Unalga Pass, off Cape Sarichef.

Secretary of State Harry Woods shot and killed himself at his residence at Springfield, Ill., yesterday. His body was found in his room. He was beaten for the United States Senatorship nomination in September.

A message to the Weekly Dispatch from Chiasso, Switzerland, says: "The crews refuse to work on vessels of the Adriatic because of the fear of floating mines. Americans who spent a night on board the Sardegna bound for Alexandria, are indignant, as the Italian government offered a torpedoboot to convey their steamer to Ancona and the shipping company had promised compensation in the event of disaster. All passages have been canceled and traffic in the Adriatic is again at a standstill."

General Joffre's reports state positively that the allies are getting a foothold upon the heights of the Aisne, thereby imperiling the whole German fortified position from Soissons to the ridge of the Argonne. While advancing at this point, the hinge of the battle line, the French also are gradually lessening the strain near Verdun and are making new progress against the Germans in the Vosges. Everywhere, from Belgium to Lorraine, the allies lines holds stanchly. The official reports point to the fact that the Germans are generally on the defensive, are forced to fight for their communications and are unable to set in motion a dangerous offensive.

Belgian Capital Removed to Havre.

Paris, Oct. 13.—Announcement from Bordeaux today says that quarters have been provided for the Belgian government officials at Havre, France, and that the Belgian capital will be established in that place.

GERMANY NOW HOLDS POLAND

Austrians and Germans Reported to Have Driven Back Russians.

RELIEVE PRZEMYSL.

Czar Said to Have Abandoned Siege in Order to Put Himself in Better Strategic Position.

Berlin, Oct. 13.—(via Amsterdam and London).—An official war office statement today declares that the whole of Poland west of the Vistula river is in German possession, the Russians having been swept back. The only point now held by the Russians in this section is Warsaw, on the east bank of the Vistula.

If Poland, west of the Vistula, has been cleared of Russian troops, the indications are that the portion of the Czar's army which has been proceeding against Cracow will have to retreat or face the possibility of the Germans cutting off their lines of communication.

Earlier dispatches from Vienna announced that the Austrian advance had relieved Przemyśl, Galicia, of the Russians. "The Austrians have entered the fortress at all points and where the Russians attempted resistance they were beaten," the message said. The Russians fled in the direction of the river San, attempting to cross at Siniava and Lezajsk, where a great number were captured.

A Central News dispatch from Rome says that a message to the Messagero from Petrograd, states that the Russians abandoned the siege of Przemyśl in order to put themselves in a strategic position to meet the Austro-German army.

In another dispatch from Rome the correspondent of the Central News says that Montenegrin troops are now only a few hours march from Ragusa, the Austro-Hungarian sea port in Dalmatia, the fall of which is believed to be imminent.

AUSTRALIA TO SEND BRIGADE.

Ambulance Corps to go With Second Light Horse Contingent.

London, Oct. 13.—The official press bureau announces that the British War office had accepted the offer made by Australia to send over another light horse brigade with a field ambulance corps.

It has been decided that of the \$285,000 which the women of Canada subscribed and transmitted through the Duchess of Connaught for hospital purposes the War Office will utilize \$125,000 in the purchase of motor ambulance cars, half of the machines to be used in France and the other half in this country.

The remainder will be devoted to equipping a naval hospital with 1,000 beds to be known as the Canadian Women's Hospital.

PLUNGED UNDER TRAIN.

Lynchburg, Oct. 13.—Information was received here yesterday of a horrible suicide on Friday afternoon at Sycamore, on the Southern Railway, of a well-dressed young white man who was about thirty years of age. A freight train had stopped at the station, and the stranger entered into conversation with some of the trainmen. As the train started to leave Sycamore, the trainmen were horrified to see the stranger plunged under the wheels of the locomotive. His head was mashed under one of the wheels of the big engine before it could be stopped.

The 41 lists of losses in the Prussian army, which have been published, contain a total of 211,000 killed, wounded, and missing, according to a Reuter dispatch from Amsterdam. The lists do not include losses among the Bavarians, Saxons, and Württembergians.

Don't forget to go to the fair tonight.

ANGLO-BELGIAN FACT

Belgium First Point of Agreement Made in 1906

Berlin, Oct. 13.—(via wireless telegraph by way of Sarville, L. L.).—The German general headquarters has given out the following report: "German military authorities, searching the archives of the Belgian general staff at Brussels, discovered a portfolio, inscribed, English Intervention in Belgium, which detailed negotiations between the 'One of these is a report to the Belgian minister of war, dated April 10, 1906, which gives the result of detailed negotiations between the chief of the Belgian general staff and the British military attaché at Brussels, Lieutenant Colonel Bernardston. This plan is of English origin and was sanctioned by Lieutenant General Sir James M. Grierson, chief of the British general staff. It set forth the strength and formation, and designates landing places for an expeditionary force of 100,000 men. Continuing it gives the details of a plan for the Belgian general staff to transport food, and find quarters for these men in Belgium, and provides for Belgian interpreters. The landing places designated are Dunkirk, Calais, and Boulogne."

"Lieutenant Colonel Bernardston is quoted as having remarked that for the present Holland could not be relied upon. Another confidential communication declares that the British government, after the destruction of the German Navy, would send supplies and provisions by way of Antwerp. There is also the suggestion from the English military attaché that a Belgian system of espionage should be organized in the Prussian Rhineland."

"A second document is a map showing the strategic positions of the French Army and demonstrating the existence of a Franco-Belgian agreement, and a third is a report from Baron Greindl, the Belgian Minister at Berlin, to the Belgian foreign office, dated December 23, 1911."

POSED AS ENGLISH OFFICER.

German Count Got Information That Won Battle, Is Story.

Berlin by wireless telegraph to Sayville, L. I., Oct. 13.—There has been given out here a story relating now Count Schwerin, a German officer, who speaks English fluently, was successful in obtaining information from the enemy which resulted in the winning of a battle by the Germans.

While reconnoitering beyond the French lines Count Schwerin was discovered by a French officer. He met this predicament by posing as an English officer who had lost his way. Of the Frenchman he asked directions to reach the English lines. He explained that he had lost his way and became soaked in a heavy rain. He changed his clothes for those of a dead Prussian officer, he said, and was now fearful about returning to the English lines, believing he stood a good chance of being shot as a German.

The French officer hesitated. He remembered that the French already had shot several English officers, mistaking them for Prussians, whom they resembled. Count Schwerin offered to take the Frenchman back and show him his discarded English uniform. This evidently convinced the French officer, for he took the Count to his mess and entertained him at a table and a French soldier was detailed to escort him back to the English lines. Once mounted, Count Schwerin drove spurs into his horse and made a dash for liberty. He was followed by a storm of revolver bullets. Fortunately, his horse stumbled and the bullets sped over his head. He succeeded in regaining the German lines with certain military information of value.

DISTRESS IN CITY OF BRUSSELS

Situation Declared to be Growing More Desperate Every Day.

IN IMMEDIATE NEED

Thousand of People Facing Starvation—Quarter of a Million Persons Are Receiving Rations.

London, Oct. 13.—Unable to procure from Washington permission for the shipment of food to Brussels, where the situation is growing desperate, through American diplomatic establishments, thus guaranteeing against seizure by the German military, Millard K. Shaler, an American sent to London by a committee headed by American Minister Brant Whitlock to purchase cereals, talked today about the urgency of immediate action. He said:

"Three weeks ago I left Brussels with a credit of \$1,000,000 for purpose of purchasing foodstuff for the needy of Brussels. The situation was then serious; since then it has grown positively desperate. 'Immediately after my arrival in London I arranged for the purchase and transport of provisions, but am still awaiting authorization to make the shipments.'

"The British government will permit exportation to Holland and the Dutch government in turn has promised permit for exportation to Brussels, but we are held up by that lack of authorization from Washington to make the shipments in the name of the American ambassador to the American minister to Brussels. This latter authorization is required by the British government, which desires a guarantee that the food won't be diverted to German military uses."

"It is no exaggeration to say that thousands of lives actually depend on immediate action. I have personally received and have seen reports received by others that the situation in Brussels regarding food is positively dangerous. It is not only the feeding of a certain number of hungry people, running into scores of thousands, but it is also the question of keeping the population from the consequences which usually accompany starvation. It is quite possible that the hungry-mad people will commit some overt act which will cause the German authorities to take drastic action."

"Fully 200,000 people were given rations three weeks ago and this number is far greater now. Normally Brussels uses 300 tons of cereals daily. Importations have now virtually ceased, and the stocks are practically used up. 'I have authority to ship 1,500 tons but no way of getting it there until diplomatic red tape is cut.'

"The American government owes it from reason of pure humanity, to insist that Germany take favorable action, or to make shipments through American diplomats, whether Germany agrees or not. I am certain Germany will agree if pressed, for the local military commanders have already guaranteed immunity from seizure."

SAYS KAISER IS BEAMING.

Certain of Victory and Talks of Changing Map, London Hears.

London, Oct. 13.—A dispatch from Rome to the Daily News says: "The famous Berlin painter, Vollbehr, who has just seen the Kaiser, says his Imperial Majesty is in the highest spirits. His pride in his valorous army is so great that it shines through his eyes, which are phosphorescent with happiness. 'The Mayor of Weimer says that the Kaiser addressing his troops said: 'My boys, the leaves are falling, but we shall all return to our beloved homes.'"

"Both the Kaiser and the German Chancellor, who is accompanying him at the front are certain of victory. They spoke about changing the map of Europe after the war."

Interesting Notes About People of Alexandria—Happenings in Society.

DIRECTORS ELECTED.

Richmond, Oct. 13.—Dr. Edwin A. Alderman, President of the University of Virginia; John Kerr, Branch Banker of Richmond; Dr. John C. Kilgo, of Durham, N. C.; Bishop of the Methodist Episcopal Church, South; Robert Jemison, of Birmingham, Ala., and Charles Steele, of New York, were today elected directors of Southern Railway Company, thus making a majority of the Board Southern men and fulfilling the hope expressed by President Fairfax Harrison in his first address before a Southern audience, when at Chattanooga on January 20th, he said: "I look forward to the time when there may be more Southern men sitting on our Board of Directors."

Mr. Steele succeeds himself. The four new directors fill vacancies caused by the death of Messrs. W. W. Binley, and H. C. Fahnstock, the resignation of Mr. George F. Baker, Jr., of New York, and the declaration of Judge E. H. Gary, of New York, to accept re-election.

Judge Gary, who is chairman of the Board of the United States Steel Corporation, and Mr. Baker, who is allied with a number of other corporations, are retiring from the Board of Directors of Southern Railway largely in deference to public opinion of the present day in regard to interlocking directorates, despite the fact that both have been active and useful members of the Southern Board.

Today's meeting of the stockholders of the Southern Railway was the first at which they have had the opportunity to directly take a hand in the management of its affairs and the election of directors. The voting trust, which has been in control since the organization of the company in 1894, now being in process of dissolution, a large number of stockholders attended the meeting in person and over ninety per cent of the total capitalization was represented. The meeting was open to the public. There was full and frank discussion of the report covering the operations of the company for the fiscal year ending June 30th, and the recently accomplished financing before approval was voted.

A number of the directors and the principal officers were in attendance and answered questions asked by stockholders touching the management of the property and gave all information requested in regard to the affairs of the company and the progress of the territory which it serves.

BULL MOOSE CANDIDATE

Chairman of Alexandria Committee of Party Files His Application.

James E. Johnston, chairman of the Alexandria committee of the Bull Moose party, has filed his name with the Secretary of State, in Richmond, as a candidate for Congress from the eighth Congressional district in the election to be held on November 3rd. The addition of Mr. Johnston's name will make the race a three cornered affair. Hon. Charles C. Carlin, the incumbent, has been nominated by the Democrats to succeed himself, and Joseph L. Crupper has been nominated by the Republicans.

It is announced today that Mr. Johnston states that he is running as an independent and does not expect to secure the indorsement of the Bull Moose faction in the district. He is an enthusiastic prohibitionist and expects to secure a large "white ribbon" vote.

Mr. Johnston was assistant postmaster of Alexandria under Thomas Burroughs, postmaster.

The eighth district is largely democratic and the entry of Mr. Johnston in the race is expected to increase the majority for Mr. Carlin.

THE EAGLES' REFUGE.

Special Feature Picture Will be Shown Tonight at the Richmond Theater.

This picture portrays the startling adventures of a society rogue, whose double life is a series of exciting escapades.

The plot, in three reels, is laid among the towering peaks of the Swiss Alps. The scenic effects are beautiful showing various sports, such as riding, mountain climbing and expeditions across the great white drifts. Society people are there in numbers including the Marquis of Terrefranca who eventually is discovered to be the perpetrator of a series of mysterious robberies.

A clever love scene is woven about the happenings in which the Marquis and an American girl figure. The girl finds him out as a robber and he vanishes. He arranges a meeting with the girl at the Eagles Refuge but an avalanche of snow strikes the hut in which he is waiting, and his life is slowly crushed out.

The picture in all of its many scenes is extremely striking, the interest of the on-lookers being eyed up to a high pitch. Don't fail to see this remarkable show.

PREPARES FOR GERMAN VICTORIES.

Great Britain has asked the United States to take over her consular interest in Warsaw in the event of its capture by German troops. The English government has filed with the State Department also a list of cities in the war territory where it desires the United States to take charge in the event of German victories.

WHAT S. O. S. MEANS

Simply a Universal Code Signal For All Nations.

In talking with the wireless operator many ship passengers ask the meaning of the three letters used in the distress signal, "S. O. S." There seems to be a general opinion that the letters are the abbreviation of three separate words, with a definite meaning. Persons of an imaginative trend will tell you that the letters stand for "Save our Ship," "Send out succor," "Sink or swim," or some such meaning. The letters signify nothing but that a ship is in distress and in need of assistance. The call is used by all nations as a universal code, so that any wireless operator, regardless of the language he speaks, can immediately intercept the call of distress. Inasmuch as the call is in use by all countries it can be seen that the signal can have no meaning in any language. The character of the code makes it call that can be picked out easily from other signals, being composed of three dots three dashes, three dots.

MANY HEAR EVANGELIST

Trinity M. E. Church Packed to Its Utmost Capacity Last Night—Many Turned Away.

The largest audience of the series greeted Evangelist Lee Starke last night at the Trinity M. E. Church to hear his address on "Sweethearts." It was an enthusiastic crowd that packed every space in the auditorium. The choir loft, the aisles, and the windows were filled, nearly a hundred stood up, and as many more were turned away who could not get seats. The Evangelist handled his subject in a masterful manner and held his audience spellbound for over two hours. His talk was more than interesting. It abounded in short sentences, sometimes running into epigrams, and poetry entirely original, full of meaning, pathos, wit, and human interest.

Mr. Starke has agreed to give a similar talk to men only next Sunday afternoon, if the Opera House can be secured; if not, the address will be delivered in one of the other public buildings.

Tonight the Evangelist announces as his subject "I Love You." This will no doubt bring out another throng. At 7:15 just preceding the regular preaching service, the Christian workers of all denominations will meet in front of the church for fifteen minutes' song service.

FIRE THIS MORNING.

Unoccupied Frame Dwelling in the Southeastern Section Totally Destroyed.

About half-past three o'clock this morning a frame dwelling under Windmill Hill, in the square bounded by Lee, Union, Wilkes and Gibbon streets, was found to be burning. In a few minutes the southeastern heavens were illuminated by the blaze and the fire department appeared on the scene as quickly as possible. The location of the burning structure was difficult of approach by the steam engines, and they took positions on Lee streets, but before any effectual work could be performed the building had been practically destroyed.

The house was unoccupied, but had been up to a few days ago the abode of colored people. There is every reason to believe that the house was set on fire. A colored man, whose home is nearby, says he saw a light in the house last night and is satisfied some person or persons were moving about therein.

ALEX. COUNTY LIGHTING CO

WILL UNVEIL TABLET.

Former Union and Confederate Soldiers to Mingle at Manassas.

Manassas, Va., Oct. 13.—This town will be the scene of an unusual gathering next Friday, when former Union and former Confederate soldiers are to participate in the unveiling of a tablet to the memory of Colonel Fletcher Webster, a son of Daniel Webster, America's great statesman, who fell during the third day's fighting in the second battle of Bull Run. Members of the Twelfth Massachusetts regiment, Colonel Webster's command, and the Fletcher Webster Post, of Boston, will go to Manassas in a special train to be present at the ceremonies. There they will be met by Lieutenant George Carr Round, president of the Veteran Signal Corps Association, who is in charge of the arrangements for the dedication, and by veterans of both armies which participated in the memorable struggle. Senator Weeks and other members of Congress are expected to attend. The dedicatory address will be delivered by Lieutenant Samuel Appleton, who served in the Twelfth, and who is a grandson of Daniel Webster, being the son of Colonel Fletcher Webster's only sister.

The tablet which is to be unveiled is a granite bowlder taken from the Webster farm at Marshfield, Mass. It has been placed at the spot where Colonel Webster is thought to have fallen. This is on the Hazel Plain farm, about six miles out of Manassas. Lieutenant Round has purchased for the Twelfth regiment an acre of ground surrounding the tablet.

It is expected that one of the speakers at the exercises will be Colonel Edmund E. B. Berkeley, ninety-two years old, ranking Confederate veteran of Prince William county, Va. Many members of Colonel Berkeley's regiment, which was in action at the second battle of Bull Run, remember seeing Colonel Webster fall from his horse. Colonel Berkeley will probably utilize the occasion to urge that the federal government make Bull Run battlefields its greatest battle park.

HARRY OWEN FOUND DEAD.

Richmond, Oct. 13.—Harry B. Owen, one of the most prominently known men in the city and State, died suddenly at his home, 2208 Park Avenue, early yesterday morning. He was found dead in his bed by one of his grandchildren.

Mr. Owen, who was an early riser, had been reading the morning paper, just before his death. His eyeglasses and the paper were found beside his bed, where they had fallen when he expired. Heart disease is given as the cause. He was a brother of Ben P. Owen.

Mr. Owen was in his sixty-first year. He was one of the best known men in this State. He was formerly a member of the House of Delegates from Chesterfield county and Manchester, and was at the time of his death reading clerk of the House. He was at one time engaged in the manufacturing business, and was formerly grand lecturer of the Virginia Grand Lodge of Masons.

VIRGINIA PYTHIANS MEET 20TH.

Richmond, Va. Oct. 13.—Virginia Pythians will assemble here on October 20, for the annual session of the Grand Lodge. The occasion will also mark the semicentennial of the order in this State.

The Grand Lodge will be in session for four days, with headquarters at Murphy's Hotel. Reservations have already been made for several hundred delegates, and it is expected that the convention will be one of the largest gatherings of Pythians in the history of the State.

Major Charles O. Saville is chairman of the general committee on arrangements, and is assisted by a number of other well-known Richmonders. It is expected that several officers of the supreme lodge will be present at the sessions, and that there will be one or more public meetings during the convention.

The order has made big strides in Virginia since the last annual meeting. There are several new subordinate lodges which have been organized during the past year, and the others have been working hard to make a great showing at the fiftieth anniversary.

KILLED WHILE HUNTING.

Fredericksburg, Va., Oct. 13.—Robert Bryan, of Stafford county, while hunting on Saturday, stopped to rest, and placed his gun on a stump. As he did so the gun slipped the hammer striking and causing the gun to discharge. The load entered Bryan's stomach. His death resulted last night. Mr. Bryan was twenty-three years old, and is survived by his wife and one child.

NURSE'S HANDS CUT OFF.

Woman Declares French Chopped Wounded's Fingers to Steal Their Rings.

Baltimore, Oct. 13.—Reciting stories of atrocities by the Allies in Belgium and by the Russians in the East, a letter written on September 10 at Bellefield, Germany, by his niece, Miss Henrietta Doerries, has just been received by Adolf Wiesner, 2421 East Fayette street. In the letter Miss Doerries declares that she saw a Red Cross nurse, both of whose hands had been cut off by British soldiers; she writes that the French were cutting off the fingers of the wounded to steal rings from their fingers; she asserts that Belgian priests were operating machine guns from the church towers, and she adds that the Russians are binding villagers together and burning them alive.

Among other things the writer says:

"Women had their breasts torn off where the English had before raised the white flag of truce. In Louvain, in Belgium, the troops were properly received with an address from the Mayor. The soldiers were presented flowers and as they marched through the city to take up their quarters to rest they were attacked from the rear and shot and scalded with boiling oil. An officer was sitting at supper with the family where he was stopping and was shot dead by the youngest son of the house as he asked for a glass of water."

"The French cut off the fingers of the wounded to steal the rings."

"I could relate still more, but almost lose reason when I think of the cruelties—old women and 8-year-old girls cut out the eyes of soldiers and chopped the legs off the wounded with spades. To such actions they were spurred on by the Belgian priests, for they themselves shot down our brave boys with machine guns from the church towers."

KILLED ON WAY FROM CHURCH

Third Murder in Carroll County in Four Months.

Roanoke, Va., Oct. 13.—The Fancy Gap section of Carroll county, which was the scene of the hunt for the Allens after the shooting up of the Hillsville Circuit Court several years ago, was the scene of another murder Sunday afternoon, when Jesse Tate and Banner Vaughan, two young men of that section on their way home from preaching at Elk Spur Church, met in the public road near the Mitchell Hotel and engaged in an altercation during which Tate twice shot Vaughan, who died a few minutes afterwards.

It is alleged the men had an old grudge against each other and when they met a few words were passed and Vaughan struck Tate over the head and grappled with him. Tate drew his gun and fired three times, two of the balls taking effect in Vaughan's chest, while the other went wild. There were several witnesses of the shooting.

Tate went home, but surrendered to United States Deputy Marshall Marion Gardner, and was turned over to Sheriff Edward Worrell.

Tate was brought to Hillsville and placed in jail to await the action of the grand jury. This is the third murder that has occurred in this district in the last four months.

FISHING SEASON POOR.

Catch of Menhaden Said to be the Smallest in Years.

Lancaster, Va. Oct. 13.—Thus far the menhaden fishermen have had the worst season in the history of the industry, and only about one month remains in which these fertilizer fish can be taken. As cool weather approaches the fish make for deep water, and the steamers have to go outside the Capes of Virginia to look for the bunkers, as the larger fish are called.

It is said that the fish traps in the littoral waters of the bay and its tributaries also are doing a poor business, the catch not being large enough to supply the local demand. While this is the case with the deep-water fishermen, those who fish in the great millponds that abound in this region are having better luck.

Mann to Tour Connecticut.

Petersburg, Va., Oct. 13.—Ex-Governor William Hodges Mann, it is announced here, will leave on October 17 for a two weeks' tour of Connecticut, where he will deliver a number of speeches in the cities and towns of that State in the interest of the candidacy of ex-Gov. Baldwin, the Democratic nominee for the United States Senate.

WAR MAY BURN ITSELF OUT.

A statistician estimates that 69 per cent. of the population of Europe is now under arms, and that the casualties in the war will approximate 650,000 killed and 2,300,000 wounded.

So far as can be seen at present, there is not the slightest sign of approaching peace, and there is reason to believe that the fearful slaughter is to continue until the nations now at each other's throats literally burn themselves out—that is the time will come when they will find themselves unable to procure such things as are necessary in the manufacture of explosives.

Chemists and experts on explosives are calling attention to the efforts made by the European belligerents have resulted in cutting off in part the supply of raw materials used in making gun-powder, nitro-glycerine and other means of destroying human lives. A large portion of these materials is imported usually by the nations involved in the present war.

Iron pyrites, from which sulphuric acid is made, is imported by Germany, Austria and the allied Powers from Spain and Mexico. California also is a producer, but has been unable to compete in European markets. Sulphur used for the same purpose, is obtained chiefly from Sicily. With the allied fleets in control of the sea Germany and Austria find it impossible to get cargoes delivered in their ports, and must depend chiefly on Italy for delivery by rail of this material at great expense. Italy taking arms against them it was said would cut off their supply of Sicilian sulphur. A limited amount of sulphuric acid, it was explained, is produced by the smelting of copper and other ores in Germany and Austria. This amount may be increased if necessary, but only at great expense and by construction of additional plants, consuming much time.

MOOSE DESCEND UPON THE CITY.

The members of the Order of Moose had a gala time in this city last night. A special train brought many members of the order from other who became the guests of Alexandria Lodge, which last night opened their carnival in the Richmond Theatre. The music, which was furnished by the Holy Name Band, was a fine feature of the reception, bringing many persons upon the streets. The carnival will prove to be one of the most interesting events on that order in the city's history. The object is to raise funds to aid the movement which has for some time been in progress to erect a home for the order in Alexandria, and it will appeal to all our people. The Moose is comparatively a new star in the constellation of secret

and fraternal organizations of the country, but it has come to stay, and shines more brilliantly every year. It was brought to the birth but ten years ago, but manifested vigor from its swaddling clothes, until it is now third in point of numbers of any similar organization. Alexandria Lodge is but two years old, but it proved to be a hardy offspring, and, as is the case in all places where the order has spread, embraces upon its rolls the names of many prominent and representative citizens.

The erection of a home for the order in this city is a great undertaking, not only to members of the fraternity, but to all residents. Hundreds of Moose stop in Alexandria every year on their way to Mt. Vernon. They are naturally interested in the history of Alexandria and the many interesting points visited by tourists. With a suitable home the pleasure Alexandria Moose take in entertaining visitors can be increased an hundred fold. It is hoped that the carnival will meet with the success due it.

REMINDER OF OTHER DAYS.

Stockholders of the Southern Railway Company held their annual meeting in the principal office of the company in Richmond today. The meeting marked a new era in the history of the company, as it was the first time the stockholders, 12,000 in number, have had the opportunity to vote directly, the voting trust, in existence since the organization of the company in 1894, now being in process of dissolution. President Fairfax Harrison in a letter addressed to all stockholders recently said: "An effort will be made to make of this meeting more than the conventional routine which current criticism finds to be characteristic of the meetings of the stockholders of American railway companies and the co-operation of the stockholders is necessary to that end. The principal officer will be in attendance to answer the question directed to the policy of the management or to any detail of its business, and the report of the operation during the past year will be before the stockholders for discussion."

The above will bring to the minds of many Alexandrians a flood of reminiscences. In ante bellum days and for some time after the curtain had fallen upon the civil war, the annual meetings of the stockholders of the Orange and Alexandria Railroad, now the Washington Division of the Southern, and those of the Manassas Gap Railroad, also at present a division of the great system, were events in this city. The stockholders were furnished with passes for themselves and families, and sometimes old Liberty Hall, on Cameron street, between Royal and Pitt, was used for the accommodation of the visitors. The reports of the presidents, treasurers, superintendents and other officials of the roads were published in the Alexandria Gazette, and sometimes half sheets of this paper containing the proceedings of the meetings and the reports were distributed to the assemblages before the paper proper was issued.

A day or so before the meetings and for a time after the adjournment the streets were filled with visitors—men, women and children—and most of the gatherings remained in Alexandria for several days.

The old Mansion House, now the Braddock House, was packed to its fullest capacity on such occasions, as were also all houses of entertainment.

Bustling scenes characterized the departure of the stockholders and their families when the final adieux were taken and the special trains moved out of the old Duke and Henry street depot.

There was no voting trust in those days, but every man interested in the companies had his say. President Harrison is reproducing former conditions.

COMPELLED TO KISS HIS WIFE

Justice of the Peace Dunnington of Colorado Springs has his own ideas of justice in nonsupport cases. At the trial of Robert Hudson, after listening to some of the testimony, he halted the trial.

"Under the law the Court can do one of two things," said magistrate. "It can send you to jail or bind you over for trial in the district court, where you might be sentenced to the penitentiary, but neither one of these things will help your wife, to you have got to support her. Now you go over and kiss Mrs. Hudson or go to jail, just as you please."

Hudson hesitated a minute, put his arm around Mrs. Hudson and gave her a real soul kiss. As the two left the courtroom, arm in arm, Justice Dunnington smiled. (Denver Post.)

KILLED ON THE GRIDIRON.

A Student at Mt. St. Mary's Meets Death During Game.

Emmitsburg, Md., Oct. 13.—William S. English, a member of the senior class of Mount St. Mary's College, was seriously injured in a game of football on the college campus and died an hour later without regaining consciousness. He did not belong to the varsity squad, but entered into the game in which he met his death in a spirit of sportsiveness and class rivalry as the result of a challenge made by two eleveners from the senior class.

While in the act of catching a forward pass he was tackled by one of the opponents, a man of slender physique, and fell heavily to the ground, sustaining concussion of the brain. Dr. Brawner, the college physician, assisted by Dr. Jamison, of Emmitsburg, and Thomas Johnson, of Frederick, hastened to render assistance to the young man and everything possible was done to save him.

DROPPING BOMBS ON PARIS.

Paris, Oct. 13.—A German aeroplane at a quarter past ten yesterday morning dropped bombs between two railroad trains pulling out of the northern railroad station. The missiles did not explode and were later found imbedded two feet in the earth.

The train were crowded with passengers.

Civil Government Continues With Burgomaster De Vos as City's Ruler.

Rosendaal, Oct. 13.—(via the Hague).—Upon request of the German forces of occupation at Antwerp the Belgian authorities headed by Burgomaster Jan De Vos, have undertaken to continue the civil government of the city.

The Germans have removed the heavy siege guns—the 42 centimeter pieces—with which they effected the demolition of the Antwerp forts, and it is assumed here these will be sent to aid the German forces operating in the region of Verdun.

General Von Beseler commander of the German troops that captured Antwerp, has issued the following proclamation:

"To the Inhabitants of Antwerp: The German army has entered your city as conquerors. No citizen shall be harmed, and your property shall be spared if you refrain from hostile acts. All refractoriness will be punished according to the laws of war and may end to the demolition of your beautiful city."

BANKERS' ASSOCIATION.

Richmond, Oct. 13.—With 2,000 delegates in attendance, the fortieth annual convention of the American Bankers' Association, in session at the Jefferson Hotel yesterday, attained full-grown proportions, and dinnered for the work of the Richmond meeting. The day was given up almost wholly to meetings of standing committees, and to perfecting details for the more important sessions of the convention.

Fifteen or more committee meetings, all of them strictly routine in nature, occupied the attention at a small portion of the delegates during the morning and afternoon. Most of the visitors gave themselves up to the diversions that had been provided for them. A fleet of automobiles carried large numbers for "little journeys" over the city. Friendships and acquaintances formed at former conventions were renewed in numerous informal gatherings in lobby and drawing-room.

Don't Let a Cold Settle on Your Lungs

Many cases of Lung Trouble can be traced directly to a severe cold which has been neglected, and which, as a result, has affected the lungs. If you have a persistent cough or cold, take warning before it is too late. Eckman's Alternative is most beneficial in such cases and has been the means of completely restoring to health many persons who had serious lung trouble. Read of this case:—
"Gentlemen: During the winter of 1911 I contracted a severe cold, which settled on my lungs. The doctor pronounced it lung trouble. I tried nearly every preparation without any result and kept getting worse. Eckman's Alternative was recommended to me and I commenced using it as a last resort. The first bottle seemed to give me relief. In fact, I seemed to feel worse, but I kept on using the medicine and found out the first to recovery by loosening the mucus and making me expectorate freely. After using the medicine for some time my cough ceased. I gained flesh and today I am a well man."
(Signed) GEO. M. RATES.
(Above abbreviated, more on request.)
Eckman's Alternative has been proven by many years' test to be most effective for Coughs, Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stomach Colds and in obliterating the system. Contains no narcotics, poisons or habit-forming drugs. Ask for booklet telling Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists. Price \$1.00 and \$2.00 a bottle.

WANT MORE MEN.

Allies and Germans Appeal for Recruits at Once.

London, Oct. 13.—England's need of more fighting men was emphasized by the announcement last night that the infantry standard which had been raised to check the great rush of recruits at the outbreak of the war, has again been lowered. The minimum height for recruits which formerly was 5 feet 6 inches, has been reduced to 5 feet 4 inches, and chest measurements from 35½ inches to 34½ inches.

An appeal has been issued in Glasgow for 2,000 recruits to replace the naval men interned in Holland.

London, Oct. 13.—It is semi-officially announced at Petrograd, according to a dispatch to the Exchange Telegraph Company from the Russian capital, that owing to the great losses sustained by the German armies all officers and noncommissioned officers who have ever been in the army are ordered to rejoin the colors without regard to age.

AUSTRIANS DEFEATED.

Serious Conditions in Serbia as Results of War.

London, Oct. 13.—A dispatch from Cetinje says that on October 7 the Montenegrins engaged in the greatest battle with the Austrians since the beginning of the war near Kalanovitch, in Bosnia. The Austrians, 20,000 strong tried to cut off the Montenegrin army operating toward Sarajevo. The Montenegrins succeeding in surprising their foes as they were marching in column formation, and in the first day of fighting inflicted a loss of 1,500 men.

The Austrians says the correspondent, seeing the impossibility of advancing in the direction of Sarajevo fell back on Kailenvitch, leaving behind 500 more men killed and wounded. The Montenegrins took a large number of prisoners and captured a large quantity of stores.

Rome, via Paris Oct. 13.—The situation in Belgrade, Serbia, is such as to cause at once astonishment pity and admiration according to a man who has just arrived here from the Serbian capital.

He said that after eleven weeks' bombardment by the Austrians the defenders of Belgrade still bravely resist, although half the city has been destroyed.

The tobacco factory has been razed the Alcazar paper factory burned, and the brewery and many other establishments torn to pieces according to this witness. The officers' club the Montenegrin legation and the Hotel Moscow are among buildings which have been damaged gravely. The beautiful street of King Michael, in which are located the Franco-Serbian bank the university, and a church, has been so reduced by fire and cannon shells that it is hardly recognizable.

300,000 PRISONERS.

New York, Oct. 13.—An importing-house of this city has received a letter, dated September 19, from a man known to the firm in Bavaria, who writes:

"There are in Germany at the present time not less than 300,000 prisoners, 12,000 of whom are Russians and 180,000 French and English. These numbers are absolutely authentic and are facts, and have been announced officially. News contrary to these figures that are spread in the United States by English or French press reports is not true."

INDIANS SHOOT GOLD BULLETS

It is not for their aseptic qualities that the Yaquis of Sonora, Mexico are casting the gold precipitates recently captured from an American. To them bullets are more valuable than gold. The Americans escaped when the Yaquis attacked the pack train but several Mexican packers were killed. The fight occurred at Agua Nuevo, a pumping station from La Colorado, about 16 miles from there. The value of the gold amounted to \$50,000.

It is reported that soldiers of the Mexican troops are exposing themselves unduly to the Yaqui fire, in the hope of clearing enough by the operation to pay the doctor and leave a neat profit besides.

L. O. Cowan who has operated extensively in Mexican mines, affirms that the Yaquis are expert manufacturers of powder and that they have been known to make up cartridges with match heads for caps, pack train into bullets, but because

Another authority says that trolley wires, the same calibre as a Mauser bullet, has been cut in small lengths and used by the Yaquis. They mine their salt-peter and sulphur and burn their own charcoal. (Spokane Spokesman.)
